dermocare

derm

dermobands

Exclusive formulation which revolutionises the concept of the **dermocare** concept for your incontinent patients.

Protection and nutrition for your skin*

www.indas.com

exclusive dermobands

Exclusive emulsion formulation for **IndaSlip** and **IndasForm** which, in band form, impregnates the absorbent layer in contact with the skin.

This emulsion is transferred via contact and body heat to the patient's skin.

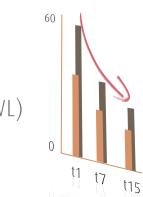

When released, it provides the the **ESSENTIAL FATTY ACIDS Omega 3 and Omega 6, Ambianty and Aloe Vera extract**, helping to keep the **SKIN NOURISHED AND PROTECTED***.

Dermatologically tested.

protective
barrier

Protection, creates a barrier against humidity and irritant agents and minimises transpidermal water loss (TEWL) avoiding dehydration*

■ TEWL negative control (no dermobands)
■ TEWL IndaSlip/IndasForm dermobands
t = time in minutes

fat balance of
the skin

Nutrition, increases the fatty content of the skin by 17.2%, promoting the restoration of the hydrolipidic film and cell cohesion*

fat content after 4 h of application
IndaSlip/IndasForm dermbands +17,2%
negative control (no dermbands) -22%
